Self-Learning

- HTML, CSS, Bootstrap, Javascript

2019-2021

Highschool Education

- Toul Ampil Highschool

SKILLS

HTML, CSS, Javascript

Node.JS

React.JS, NextJS

Vue.JS, Nuxt.JS

Tailwind CSS

Bootstrap

PHP

LANGUAGE

- English
- Khmer

ABOUT ME

I'm a fourth-year Computer Science student at the Royal University of Phnom Penh (RUPP) with a strong passion for frontend development. I enjoy building clean, responsive user interfaces and bringing ideas to life through modern web technologies. I'm always eager to learn new tools and frameworks, and I strive to create user-friendly experiences that combine design and functionality.

RELEVANT EXPERIENCE

Project Collaborator – Children's Voting Platform

Present

- Assisted in developing a web-based platform that allows users to vote for children's creative work (e.g., drawings).
- Contributed to front-end design using [technology, e.g., Next Js, Tailwind Css], ensuring a user-friendly interface.
- Helped implement a voting system that tracked and displayed vote counts in real time.
- Live Site: <https://ace-voting.vercel.app>

Personal Project – Portfolio Website

Present

- Designed and built a personal portfolio website to showcase projects and skills using [e.g., Next.js, Tailwind CSS, Framer Motion].
- Implemented responsive design and interactive animations to enhance user experience.
- Deployed the website using [e.g., Vercel]
- Live Site: <https://bunseuengdev.vercel.app>

Personal Project – Asian Drama Info Website

2023-2024

- Built a responsive drama listing website using Next.js, Tailwind Css, Nodejs.
- Integrated MongoDB with Prisma ORM to manage and store application data efficiently.
- Integrated TMDB API to fetch show data
- Added features like search, spoilers toggle, and streaming provider filters
- Live Site: <https://mijudramainfo.netlify.app>

Personal Project - Ecommerce Website

2022-2023

- Build a responsive ecommerce website using Nextjs, Tailwind Css, Node Js
- Integrated MongoDB with Prisma ORM to manage and store application data efficiently.
- Used Stipe for testing payment method
- Added features like search, sorting, filtering
- Live Site: <https://lusiecommerce.netlify.app>
